

## **FENNER RD WASHOUT/REPAIR UPDATE - June 2021**

---

The Fenner Road washout is a complex project. The Muskegon County Road Commission continues to make progress. At this point in time, the plan is to replace the failed side by side culverts with a single span bridge. Parts and materials for this work are being ordered, however, due to the nature of construction over a named stream (Green Creek) there are many entities involved, including the State of Michigan and the federal government. Various permits from these other governmental entities are required. Approval of the permits are out of the MCRC's control therefor it is difficult to establish a timeline for construction or completion at this time.
