## Yard Waste Disposal Site—Important changes you need to know!

As most people are aware, Michigan's economy is struggling. The news reports regularly on the struggles in the legislature with the State's budget and cuts they must make. One of the cuts the State has made is to the revenue sharing funds distributed to townships and cities. Laketon Township is realizing a significant reduction in the revenue sharing funds it receives from the State and will also be having to make cuts in it's budget this year. One large expense is the yard waste disposal site. In the past this site has been offered to residents free of charge. Costs of operating this site have been increasing. Costs to remove the grass, leaves & brush were up 30% from fiscal year 07/08 to fiscal year 08/09. Supervisor Kim Arter was able to negotiate a reduction in the costs to remove the brush that was

taken in, but the overall costs to remove all the yard waste taken in still rose by 19% this past fiscal year.

With reduced revenues and increased costs, the Laketon Township Board felt they had to come up with a solution to reduce costs while still providing a service to the residents. If the township did not offer this service it would cost residents approximately \$80.00 per year to have yard waste hauled away by a trash service. On February 18, 2010, the Board approved a new policy for operating the yard waste site.

Every Laketon Township household wishing to use the site must now purchase a Yard Waste Card at the cost of \$10.00 per year. This card can be purchased at the Laketon Township Hall during normal business hours. The card must be presented to the at-

tendant at the site each time the resident visits the yard waste site.

The Township recognizes this is quite a change, but it is one the Board felt was necessary. We appreciate your cooperation and understanding while we implement this change.

The Yard Waste Disposal Site hours have been determined for upcoming 2010 season and are as follows:
